

# **Configuration Guide for Windows: Connecting to the NUS Wired Network**

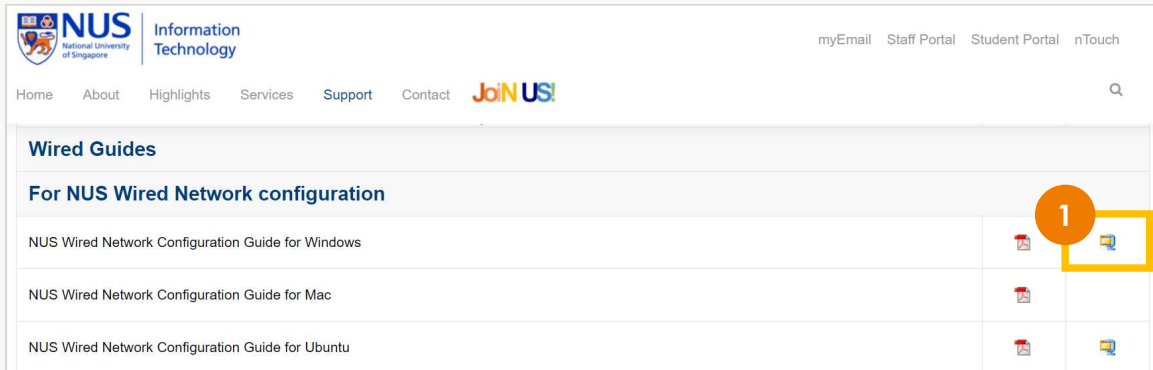

(Windows 8 and above)

May 2021

## I. Download One-Click Utility Tool (NUSOneClick) from NUS IT

- 1 **Download One-Click Utility Tool** (NUSOneClick) from [https://nusit.nus.edu.sg/eguides/#wired\\_guides](https://nusit.nus.edu.sg/eguides/#wired_guides)

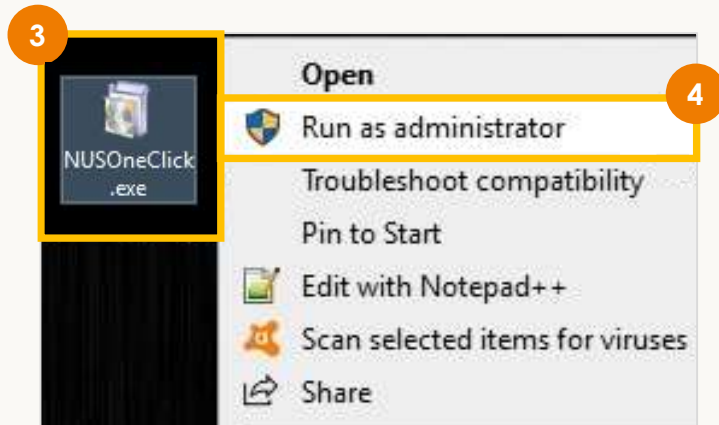

- 2 Extract the **downloaded One-Click Utility file** (NUSOneClick) onto your Desktop for easy access.

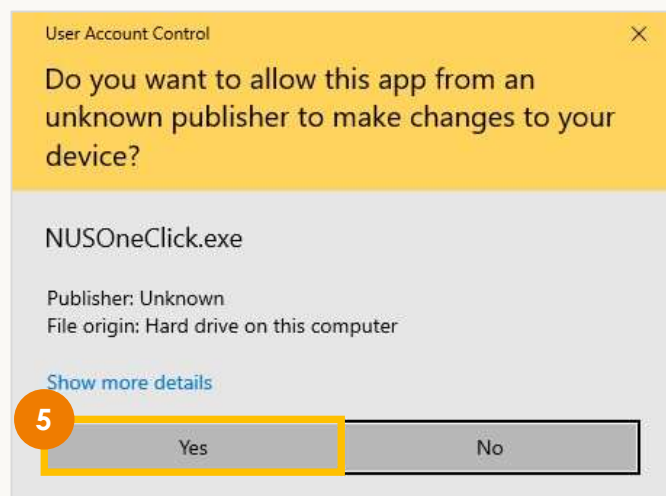

## II. Install One-Click Utility Tool (NUSOneClick) in your device

- 3 Right click the **One-Click Utility** file.
- 4 Select **Run as administrator**.

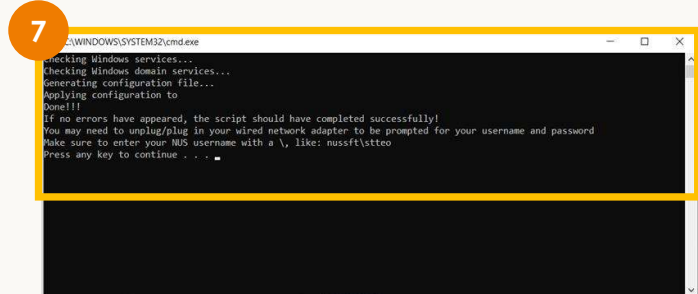

- 5 If you see the prompt, click **Yes**.

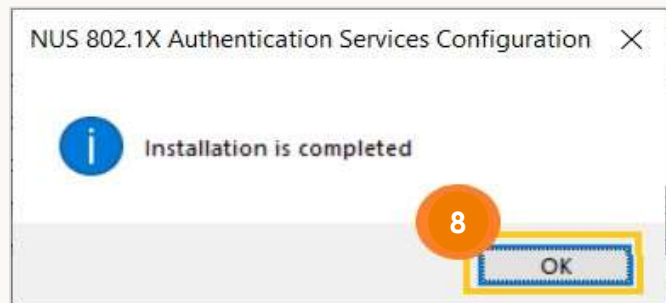

6 Click **Yes**.

7 Press **any key** continue.

8 Click **OK**.

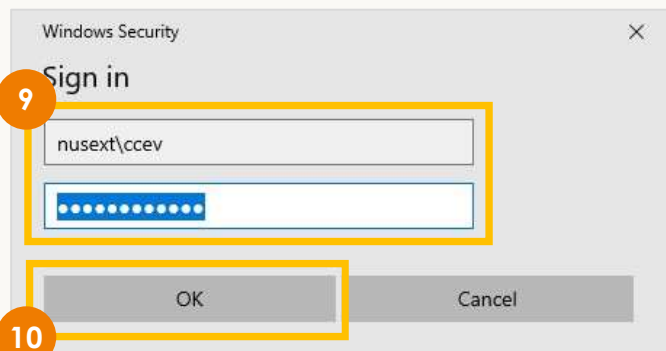

9 If you are prompted, enter your **NUSNET username** with your domain name and password.

**Domain names:**

- For Staff: NUSSTF\
- For Student: NUSSTU\
- For Visitors: NUSEXT\

10 Click **OK**.

11 Upon entering your NUS' credentials, you will be successfully **connected** to the NUS network.
